Abstracts

Sales of footwear in Nigeria recorded a steep decline in retail volume terms in 2023, following the general pattern being seen across the apparel industry. This decline was due to the challenging economic conditions in the country with soaring inflation due to the depreciation of the local currency, leading to weak consumer spending power and unit price rises. These factors led to a drop in demand as many consumers were forced to focus on their basic needs and only replaced footwear when deemed...

Euromonitor International's Footwear in Nigeria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023 and analysis by distribution format allowing you to identify the sectors driving growth.
