## Abstracts

Free from dairy continued to record dynamic growth rates in 2021. In part, this was the result of its emergence from a low base and the relative novelty of these products in Chile. Nevertheless, although it remains an incipient category, sales of alternatives to dairy products have been growing significantly in the country along with rising consumer interest in plant-based diets. There is a variety of reasons for this – including health concerns as Chileans seek to improve their diets, concerns...

Euromonitor International's Free From in Chile report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.

**Product coverage:** Free From Allergens, Free From Dairy, Free From Gluten, Free From Lactose, Free From Meat.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
