## Abstracts

Free from in Egypt continued to witness double-digit, if slower, retail volume sales growth in 2021, albeit from a low base. The performance of the category in the review period is supported by the availability of a widening variety of products and a stable supply, with no significant complications reported in terms of importing free from items. In addition, many consumers of free from packaged food have allocated a higher share of their household budgets to healthier products, including free fr...

Euromonitor International's Free From in Egypt report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.

**Product coverage:** Free From Allergens, Free From Dairy, Free From Gluten, Free From Lactose, Free From Meat.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
