Abstracts

Towards the end of the review period, over 5% of Poles identified as vegetarian or vegan, and the numbers keep growing. This supports the strong growth of free from meat substitutes that will see one of the most dynamic performances in 2021. Both local and international players have been showing a growing interest in this product area, as plant-based diets are becoming more popular. For example, Primavika has developed a free from meat food range with its latest product development that consists...

Euromonitor International's Free From in Poland report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors.
