Abstracts

Free from dairy was the second-largest category in free from packaged food (behind free-from gluten) in 2021 and the most dynamic. In particular, demand for free from dairy milk is expanding at a rapid rate, despite its relatively high pricing and the economic shock of the pandemic. The growing popularity of vegan diets and a more general desire among some local consumers to reduce their consumption of animal products were the main drivers of this. This vigorous growth has encouraged both local...

Euromonitor International's Free From in Russia report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Free From Allergens, Free From Dairy, Free From Gluten, Free From Lactose, Free From Meat.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
