Abstracts

Free from category is increasingly considered an important concept in Saudi Arabia, and the category is gaining popularity quite fast. This development is related to the general rise in health awareness among local consumers. Importantly, a more health-conscious population is driving the whole health and wellness industry, including free from packaged food. Rising health-consciousness and a shift to health prevention predates, but was accelerated by the Coronavirus (COVID-19) public health crisi...

Euromonitor International's Free From in Saudi Arabia report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Free From Allergens, Free From Dairy, Free From Gluten, Free From Lactose, Free From Meat.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
