Abstracts

Sales of fresh food continued to grow in retail volume terms in 2023, with most categories recording growth. The fresh food industry in Mexico was heavily influenced by economic and climatic factors in 2023, as well as international events such as the Avian Flu outbreak in the US that raised the price of eggs in Mexico. Despite seeing growth, some areas of fresh food saw their performances limited by price rises, which forced consumers to be more conservative in their spending. Although the infl...

Euromonitor International's Fresh Food in Mexico report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2019-2023, allowing you to identify the sectors driving growth.
