Abstracts

In 2023, inflation had a considerable impact on consumer behaviour and purchasing patterns, which affected the performance of the fresh food industry in Vietnam. Some categories, such as fruits and vegetables, felt the impact of inflation less than others. Moreover, the government and manufacturers tried to control the price of products through moves such as reducing the VAT rate from 10% to 8% from June 2023. However, inflation still had a significant impact on consumers' decision making and pe...

Euromonitor International's Fresh Food in Vietnam report offers a comprehensive guide to the size and shape of the market at a national level.
