Abstracts

Using the Digital Consumer Survey and Voice of the Industry: Digital Survey, this report explores what consumers and industry experts think about artificial intelligence, including concerns such as data exploitation, and advantages such as increasing efficiency and innovation. Case studies underline the developments. Topics explored include emerging technologies like robots, virtual reality in the car and education robots.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
