Abstracts

In 2023, the fruits category in Vietnam was adversely affected by inflation and an economic slowdown. Total volume sales of fruits saw slower growth than in the previous year. In the last year of the review period, Vietnamese consumers became more focused on saving money and reducing the frequency with which they ate out, as well as cutting back on spending on daily meals or worshipping activities. Despite the fact that retailers and distributors launched regular discount campaigns, there was no...

Euromonitor International's Fruits in Vietnam report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2018-2022, allowing you to identify the sectors driving growth.
