## Abstracts

The financial crisis led consumers to cut their expenditure on furniture. According to Fedustria, the local trade association for furnishings and furniture, products such as dining room, living room, bedroom, garden and terrace furniture were particularly affected. Nonetheless, kitchen furniture was clearly more dynamic in 2011. Also, the Belgian National Bank confirmed the trend in 2012, with a decrease in orders in the furniture industry.

Euromonitor International's Furniture and Homewares Stores in Belgium report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
