## Abstracts

According to the INE, the Spanish National Statistics Institute, the number of houses sold in Spain continued declining during the first half of 2012. The adverse economic situation which has led to an unsustainably high unemployment rate and restrictions being placed on consumer credit has also resulted in a decline in demand for houses in Spain. Furniture and homewares stores in Spain is a retail channel which remains heavily depended on the number of houses being sold in Spain and as the...

Euromonitor International's Furniture and Homewares Stores in Spain report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
