Abstracts

Ongoing economic uncertainty hindered sales of furniture and furnishings stores at the end of the review period, with constant value sales seeing a marginal decline in 2011 over the previous year. Following the 2009 economic downturn and ongoing uncertainty about the global economy, many consumers cut back on major purchases.

Consequently, furniture and furnishings were increasingly purchased only when needed, rather than in order to keep up with changing fashion trends.

Euromonitor International's Furniture and Furnishings Stores in United Arab Emirates report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Chained Forecourt Retailers, Independent Forecourt Retailers.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
