Abstracts

During the COVID-19 pandemic, consumer's everyday lives were profoundly disrupted. Many consumers spent more of their time at home, and with foodservice largely restricted, most food spending funnelled into grocery retail. New routines emerged and many of these routines will remain. The market is heating up as consumers look for new kinds of convenience in the home. This is creating space for new players looking for a share of these meals moving forward.

...

Euromonitor International's The Future of Grocery Shopping and Meals At Home global briefing offers an insight into to the size and shape of the Consumer Foodservice market, highlights buzz topics, emerging geographies, categories and trends as well as pressing industry issues and white spaces. It identifies the leading operators and brands, offers strategic analysis of key factors influencing the operating environment - be they economic/lifestyle influences, new foodservice concepts, outlet locations, menu innovation or format development. The entire industry is considered, including both chained and independent operators. Forecasts illustrate how the market is set to change and what is the criteria for success.
