Abstracts

Pet food trends typically follow those in packaged food. In terms of e-commerce, however, pet food is leading the way. Internet retailing is reshaping the global pet food market in dramatic fashion, showcasing the potential of the online revolution many expect in grocery. This report uses the vantage point of pet food as a window to the future for online grocery. It explores disruptive automated models, the potential of personalised nutrition and the pivotal role of word-of-mouth marketing.

Euromonitor International's The Future of Online Grocery: Three Lessons from Pet Food global briefing offers an insight into the development of the market, highlights buzz topics, emerging geographies, categories and trends as well as pressing industry issues and white spaces. It identifies the leading and emerging companies and brands, offers strategic analysis of key factors influencing the market, including background information on pet population, pet ownership by household and prepared gap ratio. Forecasts illustrate how the market is set to change and criteria for success.

Product coverage: Pet Food, Pet Products.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Pet Care market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;
