Abstracts

In 2023, the gardening category in Sweden experienced declining growth across categories such as fertilisers, gardening equipment, and watering products. This downturn was primarily driven by consumers postponing purchases due to the rising cost of living. Factors such as inflation, higher interest rates, and increased prices of energy and food contributed to reduced spending on gardening items. However, amidst this economic environment, private label products thrived. Private label offerings, s...

Euromonitor International's Gardening in Sweden report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2028 illustrate how market demand is expected to evolve in the medium-term
