Abstracts

Kitchen towels remain a product for developed markets. Low incomes, a lack of product awareness and inadequate distribution channels are among the key barriers to growth in developing countries. However, rising incomes and the westernisation of consumption culture, particularly in Eastern Europe and Latin America, reveal potential and are attracting multinationals as well as local tissue manufacturers into the category.

Euromonitor International's Global Kitchen Towels: Opportunities and Barriers for Broader Sales global briefing offers an insight into to the size and shape of the tissue and hygiene market, highlights buzz topics, emerging regions, countries and categories as well as pressing industry issues and white spaces. It identifies the opportunity zones within tissue and hygiene, analyses leading companies and brands, assesses the importance of private label and offers strategic analysis of major factors influencing the market - be they new product developments, economic/lifestyle/environmental influences, distribution or pricing issues. Forecasts illustrate how the market is set to change and criteria for success.

Product coverage: Away-From-Home Tissue and Hygiene, Retail Tissue and Hygiene, Total Tissue and Hygiene.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
