## Abstracts

Even as global consumers and businesses are grappling with grave uncertainties and challenges posed by the Coronavirus (COVID-19) pandemic, it remains important to have a global overview of income and consumer expenditure. Insights into trends such as rising income inequality, emerging middle classes and the “Asian century” can help businesses prepare themselves for the challenges, whilst also spotting opportunities arising from these important income and expenditure trends.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International’s vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
