Abstracts

The frenetic pace of modern life, combined with longer working hours and an increasingly strong reliance on digital devices means that jobs are swallowing up people's lives, leading to a less defined distinction between work and leisure.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow
