Abstracts

All but uniquely among fmcg industries, tobacco legislation is not simply a guiding element or a means of enforcing consumer standards but a central determining factor in the performance of tobacco markets. As the cumulative de-normalising impact of regulation and taxation drives down smoking prevalence worldwide, regulators are looking to the margins, towards next-generation measures that impair the revenue-generating capacity of manufacturers and further restrict access to tobacco products.

Euromonitor International's Global Tobacco Legislation global briefing offers an insight into to the size and shape of the Tobacco market, highlighting major industry trends and categories as well as the factors affecting operating environment. It identifies the leading companies and brands, offers impartial, strategic analysis of key factors influencing the market - be they new product developments, legislative restrictions or pricing influences. Forecasts illustrate how the market is set to change and where it is headed.

Product coverage: Cigarettes, Cigars, Cigarillos and Smoking Tobacco, Smokeless Tobacco, E-Vapour Products and Heated Tobacco.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Tobacco market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and

leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
