Abstracts

Australian public revenues grew for the third consecutive year in 2018. Better than expected tax revenue collection lifted Australian public spending, although some pressures were also present. During the year, government revenues were boosted by strong economic development in the country, especially in the first half of the year, driven by rising prices of key Australian commodities, like iron ore and coal. However, the growth in economy was not fully beneficial for consumers, with wage and con...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Government and Membership Organizations market at a national level.
