Abstracts

Emerging markets led by China, India, Brazil, Indonesia and Russia are expected to post high growth in small appliances over 2014-2019. Increased consumer disposable incomes, rising awareness of appearance and health, in addition to dramatic growth of internet access as well as smartphone and tablet presence are key factors driving the growth of small appliances in emerging markets

Euromonitor International's Growth Opportunities For Small Appliances in Emerging Markets global briefing offers a comprehensive guide to the retail sales data, allowing you to identify the sectors driving growth. The report also identifies the leading companies/brands and offers strategic analysis of key factors influencing the competitive landscape - be it new product developments, technological innovations, economic/lifestyle influences, distribution or pricing issues. Additionally, trade statistics and producer's shares will answer questions on where appliances are produced and where they are being exported to, how quickly these units are moving, which companies are producing how much, and whether all categories are behaving in the same way. Collectively, this gives a complete view in both marketing and production planning strategies. Forecasts illustrate how the market is set to change.
