Abstracts

Headphones saw positive growth in constant value terms in 2023, despite consumer concerns about the cost of living. Increased smartphone use for streaming audio and video content was a key driver of this trend, in addition to the ongoing prevalence of home working. TWS earbuds account for the bulk of sales of headphones in Malaysia, with premium offerings driving growth, thanks to the strong presence of brands such as AirPods, in the category.

Euromonitor International's Headphones in Malaysia report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
