Abstracts

As a result of the health crisis caused by COVID-19, Peruvian consumers' perspectives have changed in a somewhat paradoxical way as they are concerned with their general wellbeing, focusing on both physical health, but also indulgence and gratification. Whilst consumers are increasingly health conscious, they are also treating themselves; reduced sugar beverages consequently recorded further decline in 2021 despite the increase in the number of reduced sugar beverages available in the market due...

Euromonitor International's Health and Wellness in Peru report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Focus Categories by Key Functional Ingredients, Health and Wellness by Category, Health and Wellness by Type, Health Wellness by Prime Positioning.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Health and Wellness market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;
