Abstracts

The health and wellness market looked set to see continued growth in Vietnam in 2021, in line with the general rise in consumer health consciousness, which has been bolstered by the experiences of the COVID-19 crisis. The seriousness of the crisis has further stimulated health awareness amongst consumers who have actively sought out products that are perceived to enhance the functioning of the immune system with the hope of combatting the SARS-CoV-2 virus, either by decreasing their susceptibili...

Euromonitor International's Health and Wellness in Vietnam report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Focus Categories by Key Functional Ingredients, Health and Wellness by Category, Health and Wellness by Type, Health Wellness by Prime Positioning.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
