## Abstracts

Medical facilities in Indonesia have been under continuous development, with more treatments being available in-country compared to abroad. Many wealthy Indonesians have been opting for medical treatments overseas for more complicated diseases. However, Indonesian hospitals have been gaining more confidence and are constantly improving. People with lower incomes continue to seek medical facilities in-country, with more advanced medical services being concentrated in major cities in Indonesia...

Euromonitor International's Health and Wellness Tourism in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level.
