Abstracts

Health and wellness tourism and medical tourism specifically remain highly underdeveloped in the Netherlands. There remain very few specialist outlets for health and wellness tourism operating in the Netherlands. The country does not have a strong tradition in this category and although higher numbers of luxury hotels and travel accommodation outlets are now offering some health and wellness options to their guests, there is a limited culture for this type of activity across the country.

Euromonitor International's Health and Wellness Tourism in Netherlands report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2018 illustrate how the market is set to change.

Product coverage: Medical Tourism, Spas.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
