Abstracts

Singapore had a humble performance as far as health and wellness tourism in 2013. Medical tourism in Singapore had a modest year in 2013 due to the strong Singapore dollar. Medical tourists from key markets such as Indonesia and Malaysia saw a decline due to the higher cost of medical treatments and consultations as a result of the exchange rate. Singapore also faced regional competition from emerging medical destinations, such as Malaysia and Thailand.

Euromonitor International's Health and Wellness Tourism in Singapore report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2018 illustrate how the market is set to change.
