Abstracts

Due to COVID-19, 2020 and 2021 were unique in many respects, including for health and wellness in Brazil. After HW beverages saw a severe drop in volume sales and a strong slowing of growth in current value terms in 2020, a bounce-back has been seen in 2021, but the volume growth rate is still only similar to that seen in 2019 and earlier, and sales have not returned to the pre-pandemic level. As for HW packaged food, positive performances were seen in both retail volume and current value terms...

Euromonitor International's Health and Wellness in Brazil report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors.
