Abstracts

Economic and demographic factors are gradually transferring healthcare treatment from hospitals and clinics to private households. New technology and a desire for greater home comforts among baby boomers are opening up opportunities in the household for healthcare providers. This Strategy Briefing will shed light on why demand for healthcare at home is rising, provide insights into challenges and opportunities in the segment, and provide business examples with appropriate case studies.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
