Abstracts

Heating appliances sales remained negligible during the review period because of the tropical climate of Indonesia. Indonesian consumers do not need heating appliances.

Euromonitor International's Heating Appliances in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2010-2014, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, format trends or distribution issues. Forecasts to 2019 illustrate how the market is set to change.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
