Date: June 2019

Pages: 23

Price: US\$ 660.00 (Single User License)

ID: HE63512657DEN

Abstracts

The Australian hi-tech goods industry continued to grow in 2018, despite some difficulties in certain key categories. Local consumer electronics producers capitalised on rising purchases of more expensive household appliances and other electronics, featuring upgraded technologies and higher capacity. Nevertheless, most of the growth happened in the B2B space, where demand for electronic components, IT equipment and other electronics increased as a result of technological investment by local comp...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Hi-tech Goods market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
