Abstracts

French hi-tech goods production growth accelerated in 2019. The industry was driven by strong B2B demand and augmented by accelerated automotive output in France. In addition, there was a notable rise in consumer-orientated categories during 2019. Nevertheless, the decelerating French economy, weakening business and consumer confidence, slowing wage growth as well as a deteriorating international climate motivated French producers to revise expansion plans downward in both the domestic and forei...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Hi-tech Goods market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
