Abstracts

Growth in hi-tech goods turnover in Italy remained positive in 2019, but decelerated strongly compared to the previous year's results. The industry was negatively affected by a significant slump in business-to-business demand, driven by lower purchases by key buying industries like automakers and domestic appliance manufacturers.

Confidence among industrial buyers fell due to slow economic progress, political uncertainty post-Brexit and trade disputes between the two largest global economies – t...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Hi-tech Goods market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
