Abstracts

The hi-tech goods industry in Turkey saw a second year of exceptionally strong turnover growth in 2018. The industry, similarly to all Turkish export-oriented industries, benefited strongly from the depreciation of the Turkish lira, which has led to a stronger position for Turkish producers in international markets. This has cemented Turkey's position as the largest white goods production hub in Europe, with the country also exporting large quantities of televisions and other products. The leadi...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Hi-tech Goods market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
