Abstracts

Home care in France witnessed a notable decline in retail volume terms in 2023, with value growth largely sustained by elevated inflation within the country. This category, which traditionally follows a stable and consistent trajectory, experienced a surge in demand during the pandemic as consumers became more conscious of maintaining clean and hygienic living environments. This surge drove both volume and value growth. However, since the end of 2021, consumption patterns have returned to tradit...

Euromonitor International's Home Care in France market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
