Abstracts

Value growth in home care in Italy in 2023 was primarily supported by high inflation, bringing up unit prices as volume sales slowed or declined. Though pandemic-related fears of virus infection through surface contact have waned, Italian consumers nonetheless remained mindful of the importance of rigorous hygiene and sanitation practices. The focus, however, was on finding a balance between the quest for good hygiene, less time at home and less time spent cleaning as work and social lives got b...

Euromonitor International's Home Care in Italy market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
