## Abstracts

In 2023, home care experienced notable growth in retail value and volume terms. Rising inflation and higher price points boosted retail value, in addition to added-value properties and eco-friendly positionings. Retail volume growth benefited from an increased amount of people working from home, with remote and hybrid working leading to more use of home kitchens and bathrooms. As a result, there was an upsurge in demand for home care products and services with high levels of growth driven by air...

Euromonitor International's Home Care in Latvia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
