## Abstracts

In 2023, the home care industry in Mexico returned to retail volume growth, which was the trend seen pre-pandemic, although it was not able to return to the 2019 level of sales. Meanwhile, current value growth remained dynamic due to continued high inflation, although the increase was slower than in the previous year. Growth was seen by both measures across all the main categories, with home insecticides performing particularly well. Home insecticides found an opportunity for growth due to the s...

Euromonitor International's Home Care in Mexico market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
