Abstracts

Home care experienced substantial, double-digit retail value growth in 2023, driven by rising inflation and increased price points. However, the government's removal of the fuel subsidy hit consumers hard, along with rising prices, and the sharp devaluation of the currency and inflationary pressure. These factors challenged retail volume sales throughout the year. This led to moderate retail volume growth in areas of home care that were considered essentials, including laundry care and hygiene p...

Euromonitor International's Home Care in Nigeria market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
