Abstracts

In 2023, results on the home care landscape were impacted by rising inflation and the increased cost of living in Poland. For players on the landscape, the rising costs of resources posed a significant challenge, with cost increases seen across raw materials, packaging, transportation, logistic and operational costs. This led to

Euromonitor International's Home Care in Poland market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
