Abstracts

In 2023, home care in South Korea saw robust current value growth, propelled by heightened consumer awareness of hygiene levels since the COVID-19 pandemic. Consumers are also showing a growing preference for sophisticated and specialised home care solutions, with many prioritising products that offer superior cleanliness and hygiene features. Moreover, there is a shift towards more specialised and effective solutions tailored to specific needs, such as bacteria elimination, cleaning efficacy, g...

Euromonitor International's Home Care in South Korea market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
