## Abstracts

Demand for home care products in Spain continued to decline in 2023. This was partly attributable to the high cost of living in the aftermath of the COVID-19 crisis, compounded by impact of Russia's invasion of Ukraine, which forced many consumers to rationalise their expenditure. Another factor that contributed to the decline in volume was a change in washing and cleaning habits, as consumers looked to control their energy bills and make more efficient use of their products. As such, there was...

Euromonitor International's Home Care in Spain market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
