Abstracts

Sales in home improvement and gardening stores undergo certain fluctuations, which basically stem from the changing economic environment. Over the review period sales were fuelled by the construction boom, which made many Ukrainians decide to buy apartments and homes, not only to live in, but also as a long term investment. However, the recent economic downturn hampered growth in the channel, as many consumers were forced to limit their spending on non-essential goods, and therefore refrained...

Euromonitor International's Home Improvement and Gardening Stores in Ukraine report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
