Abstracts

Home insecticides are largely purchased out of necessity, but overall demand is being influenced by the underlying population growth in Algeria and urbanisation. One of the main catalysts for sales growth is rising average annual temperatures, as this enables insect populations to expand. Indeed, home insecticides are among the few home care categories that primarily depend on certain weather conditions, which triggers the insect population growth. During spring 2023, Algeria was a favourable lo...

Euromonitor International's Home Insecticides in Algeria market report offers a comprehensive guide to the size and shape of the market at a national level.
