Abstracts

In 2023, retail volume sales of home insecticides suffered a second consecutive year of double-digit decline, but an expansion in value sales, driven exclusively by high inflation. The category experienced a dramatic rise in prices, making it the highest increase within home care in 2023. In fact, according to the consumer index price from the National Institute of Statistics, home insecticides was among the categories to record the highest price increase among all products that it analysed. Sin...
