Abstracts

As in other categories of home care, inflationary pressure amid high input prices, supply chain disruptions, high freight costs and higher labour costs all informed upward movements in retail selling prices towards the end of the review period, including 2023. Heightened consumer price-sensitivity induced more selective purchasing habits and had a negative impact on retail volume sales, which recorded their biggest decline of the review period in 2023. Meanwhile, the channel shift to discounters...
