Abstracts

Home insecticides registered slight positive retail volume growth in Hong Kong in 2023, along with stronger current value growth. The use of stronger disinfectant products and increased general cleanliness since the pandemic diminished the survival rates of pests. However, owing to longer and hotter summer seasons in Hong Kong, both the government and consumers have been paying active attention to how to efficiently maintain pest control policies. Hong Kong has always been a warm and humid city,...

Euromonitor International's Home Insecticides in Hong Kong, China market report offers a comprehensive guide to the size and shape of the market at a national level.
