Abstracts

Situated in the tropics, Indonesia perpetually contends with the demand for home insecticides. This product category saw another upswing in 2023, and the positive trajectory is likely to continue. The surging cases of dengue fever in the country have particularly underscored the importance of these products and, indeed, the Indonesian government has been actively promulgating awareness of the perils of dengue fever, a tropical ailment instigated by the dengue virus and propagated by mosquitoes.

Euromonitor International's Home Insecticides in Indonesia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
