Abstracts

Home insecticides represented one of the strongest performers within home care in retail volume terms in 2023., This was partly attributable to soaring summer temperatures, due to the effects of climate change, which brought about an increase in the presence of mosquitos and other insects. A growing awareness of the impact of insect bites on health, such as allergic reactions, skin infections, or the spread of infectious diseases, also drove consumers to use more home insecticides. As a result,...

Euromonitor International's Home Insecticides in Spain market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
